PROJECTS

UX Design for WAF -- Class project at Codergirl, St. Louis, 2018

We used the Design Process for Women's Ambassadors Forum to identify conference attendees' and speakers' touch points and pain points with Empathy Mapping and Journey Mapping. Our feedback was obtained through surveys and interviews. We were able to offer the founder of WAF our Overview & Top Findings.

Troop313 Boyscout website re-design -- St. Louis Community College, 2018

I was assigned a website redesign in which I had to decipher through a lot of information and make a website. I researched typography and made wireframes for 3 pages. These are coded in Html, CSS and JavaScript.
